

Professional Grade Epoxies & Urethanes

Introducing
GorillaPro®

APPLIED is proud to distribute GorillaPro® products.

Hard as Nails

GorillaPro epoxy and urethane products are strong and versatile adhesives suitable for bonding most surfaces. Epoxies offer excellent resistance to heat and chemicals, making them great for tough-to-bond substrates. Epoxies are high-strength adhesives that prevent surfaces from moving. Urethanes are flexible and are formulated to withstand contraction and expansion. They are extremely versatile and are used for bonding, sealing, coating, and encapsulation in multiple industries and applications.

From firm to flexible, our epoxy and urethane adhesives suit a huge array of applications and operating conditions. They offer exceptional chemical and heat resistance, adhesion and water resistance, and mechanical and electrical insulating properties.

BENEFITS

DOUBLE/BUBBLE® Pocket Packs

- Proper mix ratio - no mistakes
- Single use package - travels well
- Sealed for protection - no contamination
- Color coded to grab & go
- No messy tubes with ill-fitting caps
- Ideal for emergency repairs on tough-to-bond substrates

Brute Strength. Professional Grade.™

Professional Grade Epoxies & Urethanes

GorillaPro® epoxy and urethane adhesives are 2-part structural adhesives that readily bond a wide range of substrates in demanding applications, including most plastics, metal, ceramics, wood, glass, stone, and rubbers. GorillaPro structural adhesives are ideal for applications that require fast set times and high strength.

EPOXIES

EP3

Extra Fast Setting Epoxy

BONDS: Plastic, metal, ceramic, concrete, wood, and stone
EASY: Room temperature cure
FAST: Extra fast setting
STRONG: Excellent cohesive strength

EP5

Non-Sag Fast Setting Epoxy

BONDS: Aluminum, epoxy, glass, wood, and stone
EASY: Room temperature cure
FAST: Extra fast setting
NON-SAG: Non-sag formulation
STRONG: Excellent cohesive strength

URETHANE

PU5

Fast Setting Urethane

BONDS: Urethane parts, thermoplastics, laminated surfaces, metal, leather, glass, and stone
TOUGH: Good impact resistance
FAST: Fast setting time
VERSATILE: Works on a wide variety of substrates

Permanently Bond Almost Anything

Epoxy adhesives are higher strength solutions and prevent surfaces from moving. Urethane adhesives retain flexibility and are better suited for structures that contract or expand with temperature. These products offer good chemical resistance, which reduces repeated or nagging repair cycles. GorillaPro epoxies and urethanes can permanently bond almost anything, including engineered thermoplastics, thermosets, nylon, composites, e-coat, and metals.

- Strong, rigid bonding
- Excellent resistance to heat and chemicals
- Withstands constant weight or force over time

High-Performance MRO Solutions

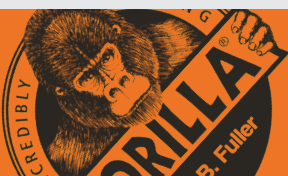

Proactive maintenance can help prevent costly unplanned downtime. It's a challenge keeping up with maintenance activities while keeping teams trained, equipment operating, and driving productivity. With a full complement of maintenance adhesives, repair epoxies, lubricants, and sealants, GorillaPro products can repair and improve the reliability of almost any piece of equipment or machinery.
