

Professional Grade Threadlockers

Introducing
GorillaPro®

APPLIED is proud to distribute GorillaPro® products.

Professional Grip That Won't Let Go

The cause of industrial mechanical failures can often come down to a simple loose fastener. GorillaPro threadlockers lock and seal threaded assemblies, protecting against vibration, corrosion, and galling. There are many factors involved in choosing the correct threadlocker and GorillaPro makes the choice easy.

Fixing fastener loosening due to shock, vibration, rust, and corrosion buildup because of humidity, high moisture, and harsh chemical attacks, are just a few of the ways that GorillaPro threadlockers protect your assemblies. It's proven anaerobic technology that works reliably every time.

BENEFITS

- Easily applied with gel or liquid
- Reliable fastener locking
- Zero-clog nozzle tips
- Grab and go color-coded caps and labels
- Prevents rust and corrosion
- Protects in harsh environments

Brute Strength. Professional Grade.™

Professional Grade Threadlockers

GorillaPro® threadlockers were developed to maximize efficiency and minimize the need for machinery maintenance in your facility. Curing on active metal substrates in the absence of oxygen, the GorillaPro line of adhesives is designed to deliver metal-to-metal bonds that are resistant to shock and vibration.

LIQUIDS

AT75

Medium Strength Blue Threadlocker

REMOVABLE: Suitable for applications where disassembly with hand tools is required for servicing

CORROSION RESISTANT: Prevents rust and corrosion that could jeopardize threaded areas

DURABLE: Has excellent resistance to extremely harsh environments

STABLE: Prevents loosening and shock from vibration

AT150

High Strength Red Threadlocker

SECURE: Suitable for applications with high levels of shock and vibration

CORROSION RESISTANT: Prevents rust and corrosion that could jeopardize threaded areas

DURABLE: Has excellent resistance to extremely harsh environments

AT160

LT High Strength Red Threadlocker

PERMANENT: Suitable for applications with high levels of shock and vibration

LARGE FASTENERS: Superior formula for larger assemblies - up to 1 inch requiring higher strength

CORROSION RESISTANT: Prevents rust and corrosion that could jeopardize threaded areas

DURABLE: Has excellent resistance to extremely harsh environments

GELS

AT60GEL

Medium Strength Blue Gel Threadlocker

REMOVABLE: Suitable for applications where disassembly with hand tools is required for servicing

NO DRIP: Gel formula provides a 'no-mess application' without drips, mess or waste, allowing for easy overhead and vertical application

CORROSION RESISTANT: Prevents rust and corrosion that could jeopardize threaded areas

DURABLE: Has excellent resistance to extremely harsh environments

STABLE: Prevents loosening and shock from vibration

AT105GEL

High Strength Red Gel Threadlocker

ABSORBS SHOCK: Suitable for applications with high levels of shock and vibration

NO DRIP: Gel formula provides a 'no-mess application' without drips, mess or waste, allowing for easy overhead and vertical application

CORROSION RESISTANT: Prevents rust and corrosion that could jeopardize threaded areas

DURABLE: Has excellent resistance to extremely harsh environments

No Run. Stay Put.
NEW 35 ml Gel Pump Dispenser

Ideal for Vertical or Overhead Applications
Easy to Use & Apply the Right Amount
No Waste - No Mess
No Dip - No Slip - No Priming
