

Exterior Lighting Adhesive Solutions

Illuminating New Possibilities

CREATING A BOND WITH OUR CUSTOMERS

APPLIED's advanced exterior lighting adhesive solutions give OEMs and Tier 1 suppliers the high quality products they need to meet the most stringent standards for performance and efficiency. Our automotive exterior lighting adhesives are engineered to bring unique advantages to headlamps, tail lamps, signal lamps, fog lights, and side markers on vehicles manufactured worldwide. These structural lamp bonding solutions are based on one-component and two-component reactive systems.

Our Solutions Deliver:

- Fast time-to-learn test
- High temperature resistance
- Fast cure time

Providing Custom Adhesive Solutions for Over 50 Years.

Since 1971, APPLIED has been a strategic business resource for a wide variety of manufacturing customers. We seek out the most innovative, cost-effective adhesive solutions for our customers and the markets they serve.

SERVICE

NORTH AMERICA BASED. CUSTOMER FOCUSED.

With over 20 locations across the continent, APPLIED delivers a stronger supply chain, localized sales reps, and shorter delivery times. We combine groundbreaking adhesive solutions with industry-leading

expertise and the highest quality delivery and automation dispensing equipment. Owning and managing every step of the process gives our customers turnkey solutions with fewer people involved and lower

overhead. It also offers the strategic advantage of avoiding issues related to importing from overseas, avoiding tariff surprises and international shipping delays.

Expertise to provide a best-in-class adhesives solution optimized to meet your specific needs.

One-Component Reactive Hot Melt

- High performance with quick green strength
- Excellent in process thermal performance
- Industry-leading heat resistance performance
- Exhibits substrate and cohesive failure through environmental conditions
- Good Shelf Stability
- Available in black, gray, and non-pigmented
- Drums, Pails, Slugs, Cartridges

Two-Component

- High performance with quick green strength
- Excellent in process thermal performance
- Exhibits substrate and cohesive failure through environmental conditions
- Good Shelf Stability
- Available in black, gray, and non-pigmented
- Drums, Pails, Cartridges

Equipment Features

- Gear pump with variable flow rate (ambient and hot applied)
- Piston pump for applicable materials (ambient and hot applied)
- Customized systems built for the application
- “True metering” technology
- Nonstop equipment variations
- Standard OEM warranty up to 24-months
- Real-time data tracking and traceability
- Cost-effective solution
